Subject: Resolution Authorizing Competitive Contract Modifications

Agenda Item No. 8(F)(10)

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached competitive contract modifications. The items included in this package modify competitive contracts for additional time and/or spending authority for the purchase of goods and services. The total additional spending authority requested is \$9,060,300. The items are described below and in more detail in the accompanying attachments.

Item 1 – Marine Services & Equipment Rental - Prequalification: Modifies this prequalification pool contract for an additional sixty months and \$7,779,000 in spending authority to allow various County departments to continue purchasing marine repair services and renting marine equipment.

Item 2 – INFOR Enterprise Asset Management (EAM) Prequalification Pool: Modifies this prequalification pool contract for an additional \$1,257,000 in spending authority and awards a work order to purchase implementation services for the expansion of the existing Infor Enterprise Asset Management at the Miami-Dade Aviation Department.

Item 3 – Commission Redistricting Consultant Services: Authorizes a retroactive modification to this competitive contract for an additional \$24,300 in spending authority for additional work associated with redistricting consulting services.

Scope

The impact of the items is countywide in nature.

Fiscal Impact/Funding Source

The allocation and funding source, by department, is listed in the attached items.

Track Record/Monitor

There are no known performance/compliance issues with the vendors recommended for award in this package. Each department's contract manager is reflected in the attached items.

Delegated Authority

If the items in this package are approved, the County Mayor or County Mayor's designee will have the authority to exercise, in their discretion, subsequent options-to-renew periods and extend contracts for purchase of goods and services in accordance with the terms and conditions of each contract.

Due Diligence

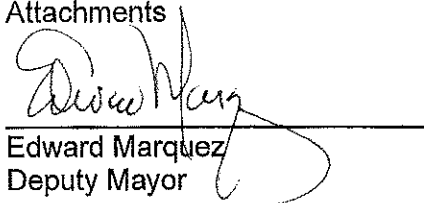

Due diligence was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine Contractor responsibility, including verifying corporate status and review of performance or compliance issues. The lists referenced include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to Contractor responsibility. This information is provided pursuant to R-187-12.

Items 1 and 2 are pool contracts with pre-qualified vendors which may participate in spot market competitions. The County Mayor or the County Mayor's designee will have the authority to solicit pricing and award contracts up to an aggregate contract amount of the allocation authorized by the Board. Additionally, the County Mayor or the County Mayor's designee may add qualified vendors to the pool at any time during the term of the contract, subject to bi-annual ratification by the Board. The County Mayor or County Mayor's designee will also have the authority to exercise, at their discretion, contract modifications, options-to-renew, and other extensions in accordance with the terms and conditions of the pool contract.

Background

Additional background information on each modification is attached.

Item 1 – Contract Modification

Contract No.:	6277-0/12	Title:	Marine Services & Equipment Rental - Prequalification
----------------------	-----------	---------------	---

Type of Change:

- ☒ Additional Time
 ☐ Authorization to use Charter County Transportation Surtax Funds as a Component of MDT Operating Funds
- ☒ Additional Spending Authority

Contract Description and Reason for Change:

This contract is for the purchase of marine repair services and marine equipment rental. This prequalification pool is set to expire on May 31, 2013. However, the contract has effectively met the departments' needs over the past five years and market research shows the requirements, terms and conditions of this contract will likely not change if a new solicitation to replace this contract is issued. It is also likely that the same vendors will pre-qualify for a replacement solicitation. As such, it is in the best interest of the County to modify this contract for an additional five years to allow user departments to continue accessing this pool.

This pre-qualification pool contract will remain advertised on the County's procurement management services website to encourage additional participation, and further, staff will also notify other vendors enrolled in this commodity code that the pre-qualification pool is available to access. The value of the five-year modification is based on current and anticipated usage per department.

Item 2 – Contract Modification

Contract No.: 9631-1/18	Title: INFOR Enterprise Asset Management (EAM) Pool
--------------------------------	--

Type of Change:

- ☐ Additional Time
☒ Additional Spending Authority
 ☒ Authorization to award work order

Contract Description and Reason for Change:

It is recommended that the Board of County Commissioners approve this contract modification for additional spending authority and to award a work order to Stratum Consulting Partners, Inc., to purchase implementation services to expand the existing INFOR Enterprise Asset Management (EAM) system for the Miami-Dade Aviation Department (MDAD).

The County established an open pool of prequalified vendors in July 2012 to obtain professional services for future development, expansion, and implementation of the existing INFOR EAM, which is the countywide standard for asset management. The pool is managed by the Information Technology Department (ITD) on behalf of all County departments. Spot market quotations are issued as projects are identified. The initial \$457,000 allocation for this pool contract was based on departmental projects that were fully defined at the time the pool was established. Work orders resulting from future spot market competitions may be presented to the Board for allocation approval.

This work order would allow Stratum Consulting Partners to be the MDAD EAM integrator. The scope of work for the integration was competitively bid against this established EAM vendor pool contract. Three bids were received of which Stratum Consulting Partners was the low bid at \$1,256,240.

As part of this implementation, EAM will be integrated with ERP, the financial and human resources system utilized by MDAD, enabling operations to be streamlined and eliminating potential errors resulting from manual data transfers. The integration will result in the following benefits:

- Will track and report on histories related to: assets, work, equipment, materials inventory and labor used.
- Will provide for increased functionality & integration capabilities to other key business systems such as ERP Financials, GIS, Propworks (MDAD Agreement and Lease Management System), and Honeywell (MDAD's Building Management) system of record.
- Will provide increased visibility into the system and provide management tools to improve the ratio of corrective maintenance (CM) to preventative or predictive maintenance (PM).
- Will provide KPI's (Key Performance Indicators) in tracking assets, parts and labor, letting managers make more informed assessments about repairs, purchases and staffing levels while boosting productivity and extending the service life of airport assets.
- Will integrate ERP and EAM for the stock and non-stock items to be available for use in Work Orders.
- Will position MDAD to take advantage of new technologies such as handheld mobile devices, barcoded inventory, and electronic calendars.
- Will establish an airport specific location hierarchy that is compatible with other airport systems including Propworks; GIS: airport specific equipment hierarchy; airport failure class (Problem Log Priorities P1, P2, P3...) hierarchy.
- Will establish the capability to provide an airport specific on-line work request module that can be accessed by all airport customers including airlines, concessionaires, and tenants in order to significantly reduce the cost of capturing work order requests and review of work order status.

Item 3 – Contract Modification

Contract No.: 777	Title: Commission Redistricting Consultant
--------------------------	---

Type of Action: ☒ Retroactive Modification of Competitive Contract (Additional Funds Only)

Justification

Regulatory and Economic Resources is requesting retroactive approval of a contract modification in the amount of \$24,300 for Contract No. 777 - Redistricting Consultant Services to Olmedillo X5, Inc. As described further below, this modification is necessary due to additional work for the Board of County Commissioners – Redistricting Subcommittee that exceeded the original expenditure authority of \$138,000 authorized when the contract was originally approved through Resolution R-499-11.

Every ten years, following the release of decennial census data, Miami-Dade County is required to amend the Commission District boundaries in accordance with the Home Rule Charter and federal law. To meet this mandate, the services of a highly qualified Commission Redistricting Consultant ("Consultant") is obtained to assist the County in redistricting of the Commission districts, and re-precincting of the voting precincts. The Consultant is contractually tasked to conduct a minimum of eight public meetings, perform a minimum of 13 community outreach meetings, develop at least four redistricting plans, and up to three final redistricting plans for consideration by the Redistricting Subcommittee, and the Board of County Commissioners, and to conduct performance test districts to ensure compliance with Section 2 of the federal Voting Rights Act. In performing the requirements of the contract, the consultant was directed by the Board to perform additional tasks as follows:

1. Conducted additional outreach meetings, that resulted in additional time and resources not contemplated in the scope of work for the contract.
2. Developed and submitted six additional plans. Each plan was prepared and then analyzed by the team expert to ensure each plan met all required redistricting principles.
3. Information provided by the County's Election department had to be reformatted in order to perform the required Racial Bloc Analysis.
4. Consultant was directed to conduct a series of "Sunshine Meetings" to discuss boundary changes.

Given that no additional funds were included in the original contract to complete these tasks, this retroactive modification is being submitted to the Board for their consideration and approval in order to make final payment to the Consultant.
